## Featured Hounds

Samson is a 4-year-old Penn-Marydel foxhound.  
He came to Spring Valley hounds in 2016. Samson  
has a very deep voice that is always  
distinguishable from the rest of the pack; Samson  
also has one of the largest sets of ears and an  
adorable wrinkle right between his eyes.

“The consensus among huntsmen with exclusively Penn-Marydel foxhound packs is that they’re unbeatable for their nose, voice and ease of hunting.

These traits foster a fierce loyalty that not only appears to pass along through generations of foxhunters, but it also springs forth in the newly converted, making them as tenacious as their hounds.

Once hunted solely in Pennsylvania, and on the Eastern Shores of Maryland and Delaware—hence their name—the Penn-Marydel foxhound has now extended its reach across the nation and proven its versatility.”
